The staff and students at the University of Bradford Management Centre wish to express their appreciation of the enormous contribution which Geoff Padgett has made in his role as Chairman of the John Speak Foreign Language Trust.

The foreign languages scholarships provided to students and young managers to facilitate the development of their language skills has been of particular benefit to our own students in recent years. We look forward to seeing the benefits of this support in future generations of linguistically competent managers who are much more international in their outlook.

Serving in a voluntary capacity within any charitable organisation tends to be a labour of love and to have served as Chairman of the John Speak Foreign Language Trust for the last 33 years is a labour of considerable love. We wish Geoff all the best upon his retirement from this role.
